## Lasagne Extra

Posted by Richard - 2008/08/03 11:12

---

Make your lasagne as you would usually.

Boil up some eggs while your making your lasagne. About one egg per person should be enough. Chop them up and mix them in with the meat as you making your layers.

Makes the dish that little bit more interesting.

Not the same - it will be minus the eggs. Best to make it yourself.

I would of thought it being minus the eggs would be a bonus? :)
